LCN to conduct a beneficiary survey for its HIV and Aids project supported by the World_Bank (27/05/16)

Lesotho Council of NGOs will conduct beneficiary survey that is meant to assess impact of its project called HIV and AIDS Technical Assistance Project (HTAP) and develop report that will inform further programming and also be shared to the World Bank and other partners.

The HTAP project aims at building capacity of government and civil society organizations at both national and local level to address the identified key gaps in implementing the National HIV and AIDS Strategic Plan in an effort to contain and reverse the epidemic. The project has three components, LCN implements Component 1 of the project which focuses on capacity building of civil society organizations implementing HIV services. The support targeted 75 civil society organisations composed of national and community based organisations. The capacity building was done through training and mentoring and the capacity building areas requested by the beneficiaries were; (i) HIV and AIDS Competencies, (ii) HIV and AIDS Programming, (iii) Project Development and Management, (iv) Organisational Development and Management, and (v) Livelihood and Income and Generation Activities. Post the training mentoring exercise was conducted on the same areas.

Other activities which form part of LCN component include awareness campaigns conducted through community dialogues on female condom and TB/HIV Coinfection. The activities were implemented in collaboration with Ministry of Health.

The objective of the survey is obtaining feedback on reactions of the beneficiaries to the intervention implemented, solicit beneficiaries achievements and lessons learnt as a result of the intervention and also produce recommendations for further programming and sustainability

The exercise will be conducted in Thaba Tseka, Leribe, Maseru, Mohale's Hoek, Mafeteng and Berea.
